ALSPOTTER

Alspotter is a capacitor discharge welding system for welding aluminium studs to repair aluminium bodypanels using the prima pulling systems.

TOP CAR 28

Spotter with 2800 A welding power and air cooling. Controlled by the sophisticated MICRO DIGITAL 5 microprocessor control for heating, deformation, and straightening. Welding of all particular studs, nails, washers and rivets. The TELEMICRO 5 enables to control the power source remotely.

COMBI CAR

Combi Car is both a Spotter for welding studs, nails, rivets, and washers, and a CD welder for welding aluminium studs for use with the prima pulling system for repairing aluminium body panels.
